

# PAUL MILLER

**Engaging Speaker**

**Audience Energizer**

**Comedy Juggler**

**STRESS | WELLNESS | LEADERSHIP | GOAL-SETTING | TEAM BUILDING**

Paul Miller speaks on topics related to personal and professional growth, leadership, and well-being at annual conferences, professional development seminars, sales meetings, recognition banquets, and leadership retreats.

After graduating from Bentley University with a degree in accounting, Paul veered from the expected path of becoming a CPA to pick up a set of juggling balls and hit the open road of comedy. Thus began his journey of studying comedy greats, street performing, presenting experimental works, and honing his ability to connect with all types of audiences.

In 1999 Paul founded Flow Circus with a mission to build connections through mindful learning and play. Together with his partner Dawn Daria, he has worked with organizations, associations, and front line staff to design, deliver, and implement sustainable hands-on programming for teens and adults.

Paul has presented across the USA for Fortune 500 companies, off-Broadway theaters, and on Disney Cruise Lines. He is most proud of his time partnering with the USO of North Carolina. As part of the Warrior Reset program Paul worked with active troops and their families to develop resilience and leadership rooted in skill based play.

## Juggler's Mindset® (Keynote)

A unique and interactive motivational presentation. Wellness is much more than exercising, counting calories, and reducing stress. It's about bringing into balance the many aspects of personal and professional life so that you are energized and empowered to be a healthier and more effective individual. Juggler's Mindset challenges audience members to go beyond the juggling metaphors and actively engage in learning a new skill. Regardless of age, ability, or seating arrangement, everyone is guaranteed to leave with tools and insights they can implement right away.

## Strive for Five (Two-Person Keynote)

Paul teams up with award winning educator Dawn Daria for a presentation that combines comedy juggling, improvisational antics, and relevant research to motivate, entertain, and inform. After teaching thousands of people to juggle, they've developed strategies to approach the process of setting a goal, overcoming obstacles, and ultimately experiencing success - all while having fun along the way. Participants stand and practice lessons such as *embrace drops* and *find flow* making for a memorable event filled with high living fun.

## Audience Energizer (Entertainment)

Enjoy a truly refreshing and interactive comedy performance that happens as much off stage as it does on. Paul's inviting demeanor and quick wit keeps audience interactions, and the laughs, rolling. Experience one-of-a-kind, never-happen-again moments as balls get tossed, balloons get blown, and magic takes your breath away. This performance is part comedy show, part motivational presentation, and part team building party.
